Policy PROGRAMS FOR GIFTED STUDENTS

Descriptor Code: IGBB

PRINT

The Camdenton R-III School Board supports programming for students who are gifted. Section 162.675, RSMo, defines gifted children as "those children who exhibit precocious development of mental capacity and learning potential as determined by competent professional evaluation to the extent that continued educational growth and stimulation could best be served by an academic environment beyond that offered through a standard grade level curriculum." The Camdenton R-III School's gifted program is a state-approved program with an academic focus. The program will serve all students who meet the eligibility criteria.

The ~~Director~~ ^{Coordinator} of Gifted Education will coordinate the referral process, notify parents about eligibility for the program, permission to test, and inform the parents that the student did or did not qualify for the program. Parents must give written permission for the student to participate in the program. The Camdenton R-III Gifted Education Program utilizes only instructional models approved by the Department of Elementary and Secondary Education (DESE).

The curriculum in the program for students who are gifted involves using differentiated educational instruction. Components of the curriculum include using creative problem solving, divergent thinking, inquiry training, research skills, creative thinking strategies, student-directed learning experiences, group interacting skills, and understanding self and others.
