EXPLANATION: GRADUATION REQUIREMENTS

MSBA has updated this policy to reflect the changes the Department of Elementary and Secondary Education (DESE) implemented in its "Graduation Requirements for Students in Missouri Public Schools." Specifically, the guidance allows the district to waive some academic credit for students who complete a program of career and technical education (CTE) studies. The policy also reflects DESE's changes with regard to the ability of a student taking an agricultural or CTE course of study to substitute certain courses with agricultural or CTE courses. MSBA has simplified the sections regarding transfer of credits to simply refer to DESE guidance on the subject.

The changes to this policy also reflect the new requirements brought about through Senate Bill 638 (2016). Prior to graduating, students must receive 30 minutes of cardiopulmonary resuscitation (CPR) instruction and training in the Heimlich maneuver or other first aid for choking.

Section 170.345, RSMo., now requires students entering the ninth grade after July 1, 2017, to pass an exam on the provisions and principles of American civics prior to graduating. The examination shall consist of 100 questions similar to the 100 questions used for the U.S. Citizenship Test. The exam may be included in any other examination administered on the provisions and principles of the U.S. and Missouri Constitutions and in American history and American institutions. The test may be administered online. Students with individualized education programs (IEPs) are permitted to waive this requirement if the student's IEP team recommends it.

Senate Bill 620 (2016) created the CTE certificate. A student entering high school in the 2017–18 school year and after may earn the CTE certificate in addition to his or her high school graduation diploma. The new law requires the State Board of Education to establish the minimum requirements for the certificate and also requires the State Board to work with local districts to ensure tracking does not occur. Districts may determine the curriculum, programs of study and course offerings based on the needs and interests of the students. Districts are not required to offer the courses necessary for a CTE certificate, but MSBA has added language to this policy referencing it. If the district does not intend to offer a CTE certificate, the district may remove this language from this sample policy.

MSBA has added to the graduation requirements a statement that the student has taken all required end-of-course exams. Although not required by law or DESE, many districts prefer to include a requirement that the student has taken all required exams. The district is free to remove this requirement.

GRADUATION REQUIREMENTS

The Board of Education for the Camdenton R-III School District establishes the following graduation policy and instructs the administration to develop all necessary procedures for proper implementation.

Requirements

A student must meet the following requirements in order to graduate from the Camdenton R-III School District, unless the stated exceptions apply otherwise exempted. The student must:

1. Complete a total of 25 credits, including credits required by the State Board of Education.
2. Pass proficiency exams concerning American History, American Institutions, American civics, and the Missouri and U.S. Constitutions.
3. Successfully complete a course of instruction of at least one semester in length on the institutions, branches and functions of the government of the state of Missouri, including local governments, the U.S. government and the electoral process.
4. Have earned credit in the Camdenton R-III School District's educational program between the ninth and twelfth grades.
5. Have completed a minimum of six semesters between the ninth and twelfth grades.
6. Have taken all required end-of-course (EOC) exams.
7. Have received 30 minutes of cardiopulmonary resuscitation (CPR) instruction and training in the proper performance of the Heimlich maneuver or other first aid for choking.

Exceptions

1. Graduation requirements for a student with a disability receiving special education services pursuant to the Individuals with Disabilities Education Act (IDEA) may be determined according to the student's individualized education program (IEP).
2. Students transferring from another accredited Missouri school as a junior or senior who cannot reasonably complete the district's requirements may be permitted to graduate based on the successful completion of a program of studies that would have met the graduation requirements at the school formerly attended, including the requirements of (2) and (3) above other Missouri school districts or charter schools, private or parochial schools, home

schools, unaccredited schools, and schools in other states or countries will have their credits transferred in accordance with guidance from the Department of Elementary and Secondary Education (DESE).

3. The district will waive the requirement to pass proficiency exams concerning American History, American Institutions, American civics, and the Missouri and U.S. Constitutions for students who transfer from another state if they can document the successful completion of a course of instruction in the institutions, branches and functions of state government, including local governments, the U.S. government and the electoral process. Such instruction must have been completed in grades nine through twelve.
4. ~~Students who transfer from another state or country or an unaccredited private, public or home school and who are placed in the ninth grade will be required to meet all established graduation requirements. If such a student is placed in the tenth grade or higher, the district will work with the student and the parents/guardians to develop a program of studies that will result in graduation if successfully completed.~~
54. Graduation requirements for foster care students will be modified or waived in accordance with law and Board policy IGBE.
65. Eligible students who successfully complete the Missouri Option Program (formerly the GED Option Program) will be awarded a high school diploma.

Earning Credit

1. The superintendent or designee is directed to assign credit values for courses offered by or through the school district and to develop formulas and procedures for awarding credit to transfer students who transfer from a district that uses a different standard for awarding credit.
2. The Camdenton R-III School District recognizes units of credit obtained through accredited schools and school districts, including credits earned through correspondence courses or courses delivered primarily through electronic media, such as satellite video, cable video or computer-driven or online courses. For the purposes of this policy, an "accredited school" is the Missouri Virtual Instruction Program (MoVIP); a private agency where students with disabilities are placed by a public school; or any school or school district accredited by the Missouri Department of Elementary and Secondary Education (DESE), the North Central Association of Colleges and Schools (NCA) AdvancED, the Independent Schools Association of the Central States (ISACS) or the University of Missouri Committee on Accredited Schools-Non-Public (CAS). If a school or school district is located in another state or

Critical

- country, that school or school district must be accredited by that state's or country's department of education, NCA **AdvancED**, ISACS or the equivalent agencies.
3. With district-level administrator approval, students may earn credit by successfully completing Camdenton High School level courses prior to entering the ninth grade. If the course is taken prior to entering ninth grade but taken in Camdenton High School, it may be counted toward meeting all graduation requirements, including state minimum requirements.
 4. Completion of a three-unit course in either Horticulture or Health Occupations **Science** through the Lake Career and Technical Center program of studies satisfies the third unit of required science elective credit for graduation purposes. Students must take the end-of-course exam required for any waived course.
 5. A student may fulfill one unit of academic credit with a district-approved agriculture or career and technical education course for any English language arts, mathematics, science or social studies unit required for high school graduation in any combination up to fulfilling one requirement in each of the four subject areas. The substitution may not be made for courses that require an end-of-course statewide assessment. Unless otherwise waived by law, students who substitute certain courses with agricultural or career and technical courses are still required to complete a course of study of at least one semester in length covering the institutions, branches and functions of the government of the state of Missouri, including local governments, and of the government of the United States and the electoral process.
 56. Students may earn credit for a subject that has been embedded into another subject-area course in accordance with guidelines established by DESE.
 67. ~~The district will award credit to students who can demonstrate mastery of competencies for a particular course by successfully completing a district-approved mastery assessment tool.~~ The superintendent or designee may approve credit earned on a proficiency basis if a student is able to demonstrate mastery of the competencies for a particular course and if state requirements are met for a quality, competency-based credit system.
 78. Students may earn credit by other means as approved by the Board and in accordance with law.

Diplomas

Students will be awarded either a diploma or a certificate of attendance in accordance with this policy and as permitted by law.

A student in the household of an active duty member of the military, including some veterans who are deceased or injured as defined by law, who transfers to the Camdenton R-III School District from another state at the beginning of or during his or her senior year who will not meet the graduation requirements of the district **Camdenton R-III School District** by the end of the senior year will receive a diploma from the sending school district if the student is able to meet the graduation requirements of the sending district. Representatives from the Camdenton R-III School District and the sending district will work with the student to facilitate this alternative. If the sending district refuses to cooperate, the Camdenton R-III School District will use best efforts to allow the student to graduate by the end of the senior year.

Foster care students will be awarded a diploma in accordance with law and Board policy **IGBE**.

Students who complete the district's graduation requirements while under the jurisdiction of the juvenile court will be awarded a high school diploma even if the student completes the requirements in a different school district.

In addition to receiving their graduation diploma, students may earn a career and technical education certificate (CTE) if they meet the standards created by the State Board of Education.
