

Content Area: Mathematics

Strand: Algebraic Relationships	Missouri GLE: A2A
Reporting Topic: Use symbolic algebra to represent unknown quantities in expressions or equations and solve one-step equations	
Grade: 6	

Score 4.0	<p>In addition to Score 3.0, in-depth inferences or applications that go beyond what was taught. For example, the student may:</p> <p>Relate algebraic rules and equations to real life situations. Create a problem that can be solved using an algebraic equation.</p>
	3.5 In addition to 3.0 performance, in-depth inferences and applications with partial success.
Score 3.0	<p>The student will:</p> <p>Solve one-step equations with a variable Write the rule using symbolic algebra using both graphs and tables.</p> <p>The student exhibits no major errors or gaps in the learning goal (complex ideas and processes).</p>
	2.5 No major errors or gaps in 2.0 content and partial knowledge of 3.0 content.
Score 2.0	<p>The student will:</p> <p>Identify the operation that is needed when given the word form of the expression. Describe the rule for completing a table in words.</p> <p>The student exhibits no major errors or gaps in the simpler details and processes.</p>
	1.5 Partial understanding of the 2.0 content with major errors or gaps in 3.0 content.
Score 1.0	With help, a partial understanding of the 2.0 content and some of the 3.0 content.
	0.5 With help, a partial understand of the 2.0 content and none of the 3.0 content.
Score 0.0	Even with help, no understanding or skill demonstrated.
