OTC-Medical Terminology 3 credit hours

HOSA

HOSA is a new club to the Camdenton school district. As the first members, we are setting the precedent but we also want to see it grow to its fullest potential. Through HOSA we have been able to participate in many events to give back to the community.

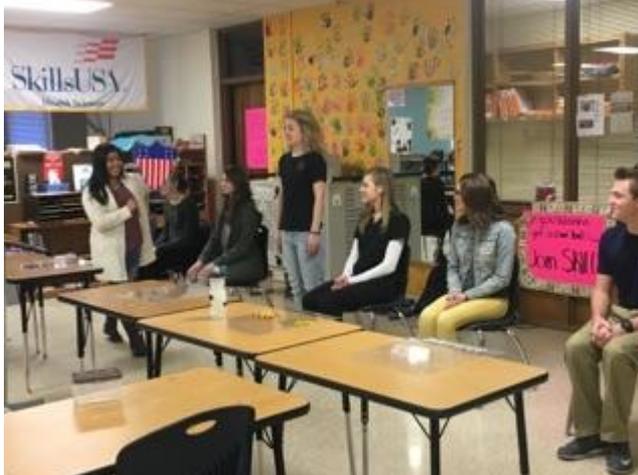

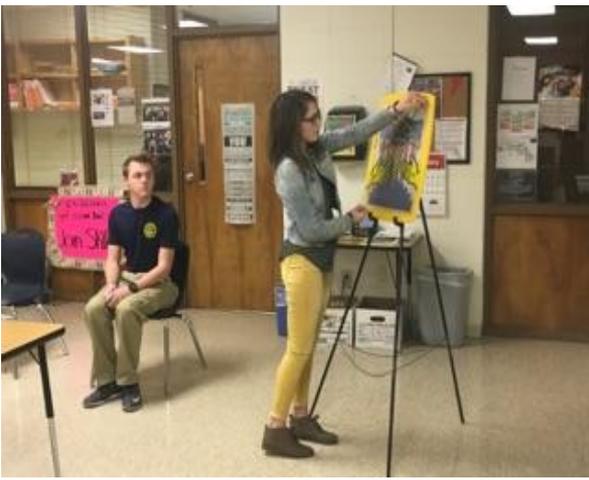

- Taking part in Alzheimer's Walk
- Assisting with Blood Drive at LCTC
- Taking part in health care competitions

SkillsUSA mission is to empower its members to become world-class workers, leaders and responsible American citizens.

SkillsUSA provides fun and rewarding competition that teaches us diligence, professionalism, and business sense that is very important to success.

LCTC Has...

- Introduced us to people with the same interests and goals.
- Given us the opportunity to get our CNA and CPR certification so that we can showcase our skills therefore enhancing our resumes.
- Career exploration to see the many different paths and find the right one for us.
- Given us real world skills and knowledge that will directly apply to our chosen vocation.
- It has given us that extra step and positive edge, making us more prepared for college.
- **Challenging yet captivating, it has been a constant source of personal enrichment and one of the biggest highlights of our high school career.**

**Thank You Board Of
Education!**
