

Dogwood Elementary **PASS**

Family Night

- Join us Thursday January 29th for a Science Family night. It will begin right after PASS from 5:30-7:00. We will have many different experiments for you and your child to complete together. We will also serve pizza and drinks. Your child should have already brought home a flyer about our PASS night, but if you did not turn one in there is also one attached to this newsletter. Please complete the bottom portion and return it to Mrs. Hodge by Thursday January 8th. We would love to see a great crowd as we will also have our monthly MAD scientist working with groups of students.

Dinner Program

After school services has announced Dogwood Elementary will serve dinner during Dogwood PASS hours starting January 12th, 2015 at NO COST to parents. Students must be enrolled in the PASS program in order to participate in this new dinner program. Please be sure to sign the Dinner Program flyer and return it to Mrs. Hodge. If you do not want your child to participate in the dinner program your child will still receive a snack after school. The dinner program has been very successful at other buildings that it has been implemented into. If you have any questions regarding the dinner program please call 573.346.9233.

Attendance

We encourage you to have your child stay the full duration of PASS; however, we understand if "life" gets in the way and things come up. PASS is an important part of the day for your child. He or she is receiving additional instruction from teachers in a one on one setting. We appreciate you allowing your child to participate in PASS, and making special arrangements for them to stay after.

HOMEWORK

At 5:00 we begin homework lab in the library. Please know if you choose to pick your child up before 5:00, they will not have their homework completed. During homework lab we have lots of teachers helping our students on their homework and listening to them read.
